**SUGAR ON ARIZONAN**

When the big freighter Arizona of  
the American-Hawaiian line starts on  
her return journey to the coast, she  
will carry nearly 6000 bags of sugar,  
according to the present outlook. This  
will be the first sugar of the new crop  
to be shipped. The exact amount that  
will be ready for shipment is not yet  
known, but it is estimated by those in  
close touch with affairs that it will not  
be far from the 6000-mark.

**MARE ISLAND DRY DOCK.**

Mare Island, Nov. 23.—It is estimat-  
ed at the present time that the new  
dry dock now under the course of con-  
struction by the Seefield Construction  
Company at this yard will be ready  
for use about the 1st of next May. The  
calson for the dock has just been com-  
pleted by the Union Iron Works of San  
Francisco and will be delivered to the  
Seefield Company in the near future.  
The yard authorities are in the hope  
that the cruiser California will be  
the first vessel to enter the new  
structure.

The yards and docks department at  
this station has received orders from  
the naval authorities at Washington to  
begin operations for the construction  
of an annex to the yard hospital. The  
department officials will put a force of  
men to work this week excavating for  
the new building, which will be built  
out of concrete. There is over \$73,000  
available for the construction of the  
annex.

**ALEXIS LEAVES PALACE**

PORT AU PRINCE, Hayti, Dec. 2.—President Nord Alexis, wrapped  
in a French flag, took refuge on board a French warship. He passed  
through dense crowds on his way to the wharf and was loudly cursed.  
Several attempts were made upon his life. Rioting broke out, and the  
President's trunk, containing \$80,000, in coin, was captured. The for-  
eign warships all saluted Alexis when he appeared on the harbor.

**GOODSON RECITAL  
A MUSICAL TREAT**

Now that the local lovers of good  
music have made it possible for Hono-  
lulians to hear one of the greatest pi-  
anists in the world, it remains for the  
people who are interested in good  
music to make it a great success. Those  
who have not secured seats should do  
so at once, while there are still many  
good ones left.

An opportunity of this nature does  
not occur oftener than once in a de-  
cade, and no one who appreciates the  
highest class of music can afford to  
let it go by. Reserved seats are on  
sale at the Bergstrom Music Co., at \$1,  
\$2, and \$2.50. The recital is to take  
place in the Opera House next Tues-  
day afternoon.

**RECORD IS SMASHED**

(Continued from Page 1)  
officers of the Army and Navy and  
civilian Government employees and  
their families.

The entire Battery F of the Fifth  
Field Artillery is on board, consisting  
of eighty-four men. There are twenty-  
two invalids, sick in the hospital;  
thirty-one military convicts being  
conveyed to the military prison at  
Alcatraz Island, San Francisco; sev-  
enty casuals, ten ex-employees of the  
Navy, sixty-one enlisted men of the  
Navy, and 104 enlisted men of the  
Marine Corps on board, in addition  
to the first and second-cabin passen-  
gers.

On the evening of Tuesday last the  
officers on board gave a dance on the  
spar deck of the Thomas. The evening  
was ideal and the occasion was  
one which those who were privileged  
to enjoy it say that they shall never  
forget.

The Thomas sails this afternoon at  
3 o'clock for San Francisco. As soon  
as the ship reached port the seamen  
were put to work daubing paint on  
her sides, and when she leaves port  
there will be nothing to show that  
she has just completed the biggest  
installment of her long journey.

**HOURLY CALLS ARE  
BEING SENT ISABELL**

Wireless messages are being sent  
at hourly intervals from Kahuku Point  
station to Export A. A. Isbell at Hilo,  
to enable him to make tests concern-  
ing the possibility of locating a sta-  
tion in the Hawaiian city. Isbell's call  
is repeated for ten minutes at a time  
to give him ample opportunity to  
catch it.

Isbell is equipped only with a receiv-  
ing apparatus, so there is no way that  
the local station can ascertain whether  
he is receiving the calls or not. The  
sending will be kept up all day long  
throughout the week, at the end of  
which time it is expected that some  
report will be received.

It is supposed that at present Isbell  
has an aerial erected in the city of  
Hilo, as it was his intention when he  
left here to make his first tests there.

**OVERHAULING NIHAU**

The steamer Nihaui of the Inter-Is-  
land company is receiving a thorough  
overhauling at the Inter-Island wharf.  
Not only is the hull receiving a coat of  
paint, but the upper works are being  
gone over and the ship is being given  
a festive appearance generally. The  
haul alongside the Nihaui was the  
scene of bustling activity this morning,  
being covered with hawsers and other  
ship equipment from the steamer, be-  
ing overhauled and made ready for ser-  
vice.

**MATSON PROSPERITY.**

The Chronicle says: The Matson  
Navigation Company has called into  
service two of its sailing vessels which  
have been lying up in order to handle  
the heavy freights which have been of-  
fering for the Hawaiian Islands, and  
which could not be accommodated by  
the steamers and bark which the com-  
pany operates constantly between this  
port and the islands.

The bark St. Catherine, which had  
been lying at Sausalito, has been taken  
on from her seclusion and put into  
condition for sea. The same thing has  
been done by the ship Hawaiian Isles.  
Both vessels will get away for the is-  
lands early in December.

The Catherine shifted from Howard-  
street wharf last evening to Richmond  
street wharf, where she will load a shipment of canned  
oil from the Standard Oil com-  
pany, returning to her berth on Sat-  
urday to finish loading. The Hawaiian  
Isles will start loading December 3d  
and is scheduled to sail a week later.

The schooner Ka Moi is undergoing  
repairs at the Customs House wharf.  
The broken foremast, which was  
splintered in the storm off the island  
of Hawaii Sunday evening, is being  
replaced and the mastsprit is being  
repaired. A new outfit of canvas,  
to replace the one destroyed in the  
storm, is being fitted.

**CAPTAIN THOMSEN,** formerly  
chief officer on the steamer Enterprise  
of the Matson Navigation Company,  
has gone to Puget Sound to take a sim-  
ilar position on the steamer Hyades.  
The Hyades has been chartered by the  
Matson Company to run between Puget  
Sound, Honolulu and San Francisco.

**THE BARK W. B. Flint** is now half  
black and half white. The bark,  
which has heretofore worn a white  
coat, is henceforth to be decked out in  
black. The painting is but half fin-  
ished, so the starboard side is a re-  
splendent black while the port side  
of the hull remains a dirty white.

**THE TRANSPORT Thomas** is due  
from Manila tomorrow, en route to San  
Francisco. Among the passengers may  
be General Weston, who has been as-  
signed to the command of the Pacific  
Coast division of the Army.

**THE LIGHTHOUSE** on Engineer Is-  
land is approaching completion as far  
as construction work is concerned. The  
main concrete building walls are up  
and the light tower has been raised  
above this structure.

**CAPTAIN ROSEHILL,** of Marcus Is-  
land fame, may be given the tempo-  
rary command of the schooner Ethel  
Zane, to take her to the Coast. Cap-  
tain Hahn is quite ill in the Queen's  
Hospital.

The Matson liner Lurline sails from  
San Francisco for Honolulu tomorrow.  
She will bring a full cargo, including  
more war material, and a large num-  
ber of passengers.

**THE KOREA** is due here tomorrow  
morning from Yokohama with 1750  
tons of freight. A large number of  
passengers have booked for the vessel  
from here.

orders, departed for the Sound last  
evening.

**THE SCHOONER Ada** tied up at the  
Customs House wharf this morning  
and at once began unloading her cargo  
of wood.

**A STEAM dredge** belonging to the  
Hawaiian Dredging Company is tied up  
alongside of the railroad wharf.

**THE HULL** of the Inter-Island  
steamer Claudine is being given a coat  
of paint at the Kinai wharf.

**ONE OF Cotton Brothers'** big steam  
dredges is moored in the lagoon west

**INCREASE IN SHIPPING**

NEW YORK, N. Y., Nov. 21.—The  
output of the shipbuilding plants of  
the United States for the fiscal year  
ending June 30th last was the great-  
est in the history of the country, ac-  
cording to a statement by Rear Ad-  
miral Francis T. Bowles at the annual  
meeting of the Society of Naval  
Architects and Marine Engineers in  
this city yesterday. Rear Admiral  
Bowles, who is retired and now pres-  
ident of the Fore River Shipbuilding  
Company and also of the society, said  
that 1547 vessels aggregating 614-  
216 gross tons were built in Ameri-  
can yards within the year. The yards  
on the Great Lakes, which he said  
were protected by both geography and  
law, were the chief contributors.
